

BIM Angels – introduction:

www.bimangels.co.uk

network of creative professionals,
passionate about smart workflows,
inspiring spaces and wellbeing

The core team:

Galia P. Kaloyanova

Maria A. Georgieva

Currently **BIM** stands for Building Information Modelling, but we perceive it as a stage in a broader movement towards smart and efficient workflows that will help us create sustainable environments, enhancing our wellbeing, so we prefer to translate it '**By Intelligent Method**'.

Business Angels – are independent individuals, investing their own money, therefore able to take more risks than venture capital (VC) firms and invest in more early-stage or seed start-ups. We are knowledge investors, supporting teams at various levels to achieve excellence.
